Customer Reviews

I was looking for a few good books to improve my marketing online and found this book so I purchased it. And so far, I enjoyed reading this book along with the ones that have useful relevant takeaways. And this book is a concise, clear-sighted overview of visitors and actions. It explains the how and why of conversions and measurement. And it's all done in simple terms with relevant examples. The book is a refreshing bird's-eye view of how to make content that connects with your audience. It also provides tips on getting more Facebook likes or Twitter followers which is the reason why I deemed this as necessary. There are many books out there that purport to teach you everything you need to know about social media marketing. But if you're looking for a particular book that helps you achieve your goal, this book is for you. Highly recommended.
