Customer Reviews

I have heard of FBA before but haven't tried it yet. I've sold used books on Amazon and am familiar with the seller's page and having to ship items. This is a good book if you are unfamiliar with what the FBA program offers. It goes over creating your account, finding products to sell, guidelines, shipping, fees, labeling etc. This could be a great option for someone looking to make some extra money and perhaps even make this their job. It's something that could be done in spare time to begin with and scaled up as you get more comfortable.

An informative read! This book is well explained and really helpful to anyone interested to start business in Amazon. It contains a lot of information and is very well researched. It gives a great insight to develop your business and it guided you to understand clearly. This book covers everything you wanted to know and is very helpful to anyone. I definitely will recommend this book!

Making your own e-commerce website can be both technically complex and expensive. You must be able to develop your own marketing strategies. But with Amazon, you get to leverage the benefits of working with one of the top online sites on the internet. That's why I bought this book because it's very informative and helpful for all the people who wanted to build an online business and grow it as big as their vision. This book has a lot of strategies to tell about starting a business that involves selling. This would help you to become an effective online businessman. I think the author of this material is not just an author but is also an experienced businessman because he is knowledgeable enough to share profound thoughts about the topic. In a time when online business continues to boom, I also believe that this book would help a lot of people nowadays especially those ones who want to be expert on online business. Thumbs up for the author for sharing his knowledge about FBA..

I've always wanted to sell physical product on Amazon but didn't know where to start and how it works. I'm a self-publisher and sell ebooks on Amazon. But physical product is another world since we have to find a manufacturer, check if the product has a good quality, get the private label.. This ebook tells everything you need to know about FBA, from finding what product to sell to the different techniques to make it rank well. It even talks about taxes. Robert Hawthorn did a great job!

The book handles the most applicable and imperative data about FBA and how to get more benefits that each dealer wishes to earn. This book will demonstrate to you proper methodologies to mark and run down your things, the way toward offering your stuff, the sorts of charges included, and

how to do private labeling. This book has a ton of procedures to tell about beginning a business that includes offering. The book has examined the essentials of internet offering in FBA including the taxes. This could be an awesome choice for somebody hoping to profit and maybe even make this their occupation.

Great beginners guide to learning the business. As a beginner there are a lot of pitfalls when it comes to building a business and why not learn from the mistakes of people higher than us. You will learn everything from how to start your own private labeling product, how to market and sell your products effectively, how to manage and ship products effectively, and etc. the lists goes on. This will teach you the fundamentals, along with the mistakes to avoid which may boost you to be very successful early on in your business. Good read.

Excellent guide. It covers all the basics of doing business on , from the very beginning. Patient, step-by-step guide that is helpful. It has great advice on everything included in the process like advertising, placing products, profits, everything. can be an amazing resource to make good money, but it can also be a huge risk if you don't know what you are doing. This book can help minimise those risks, and it should be required reading before stepping into as a seller.

With Fulfillment by , you store your products in 's fulfillment centers, pack, ship, and provide customer service for these .How to register a business and deal with tax issues, You'll find in this book.
