ASIN: B013Y8THQ2

Best Sellers Rank: #77 in Books > Audible Audiobooks > Children's Books > Fairytales & Folklore #1358 in Books > Audible Audiobooks > Children's Books > Fiction

## Customer Reviews

I downloaded this on my kindle app for free. After reading Uncle Amon's Christmas Stories I was excited to review this one. My son is currently under a year, however I enjoy reading to him. I enjoyed the imagination in the bedtime stories, especially "Little Star Friends" the wonderful trip little Charlie went on with his star friends and the fact they helped him on the trip was great. I also liked the connection in the awake world after his mother woke him up. I want to inspire my son to follow his dream and embrace his imagination these stories help him to do so. I cant wait to get the next book by Uncle Amon I see him being a favorite in our house hold

Easy, nice read for the kiddos! I read them to my 4 year old niece, and she did hear a few words that I had to define for her (e.g. "Reluctant"). The plot and characters were cute. I'd say the only thing that I would add would be more pictures every now and then. I like to use pictures as

discussion points for the younger kiddos (at work and at home). Plus, the pictures that are in the book are adorable so it'd be nice to see more. I received this book at a discounted price for my honest opinion.

A sweet set of imaginary stories. I believe the ages listed are pretty spot on. I have twin foster girls that are 4 and they enjoyed the stories. Of course, they would prefer more pictures to go along with the stories. These stories were short and sweet and kept their interest. Each story shares a lot about how kids can use their imagination and have fun. The characters in the stories are easy to relate to. We had fun talking about the stories after reading them, trying to put ourselves into the stories. I found a few edits that were missed but all in all this was a good find. I received this for free in exchange for an honest review.

This is the third book we have read from Uncle Amon and this one is by far my favorite. Bedtime Stories is a collection of short stories centered around kids dreaming/imagination. It's a good story to read not only at bed time but at any time to help spark some imagination. These stories are the perfect length, read just one on those late nights, or they are short enough to read 2 when the little one gets to bed early. I enjoyed all the short stores in this book, they had a nice flow, well written, and kept me as an adult interested. I was able to download this book for free on the kindle and I'm glad I did.

I bought this book because of the ratings and I was extremely disappointed! There were grammatical errors and sentences that didn't make sense. There weren't enough pictures for children to look at while the story was being read. There were pages in the book for children to color and to create their own story. It seems like this was added to make the book longer.

This book contains five short stories written by Uncle Amon. I have grown to like his little stories! I wouldn't mind owning physical copies of books for my library :). When reviewing a children's book, it is important to read it from a child's perspective. It needs to be in language and verbiage that they understand. I think that for the target audience Uncle Amon is reaching for, he meets that need. I do have to admit, as cute as this book was, I did enjoy Happy Monsters better! I thought the stories were cute and fun, however, felt they could have been a little more exciting.

This book is horrible. It's the same over and over and the magical frog story, instead of Lilly's name,

there is a Melissa thrown in there....anyone else catch that? And the grammar errors are all over. My daughter did not enjoy this book at all, and I didn't enjoy reading it.

This is a very cute book for children who are 6 months and up. However if you like to read to your children you can start as early as the day you bring them home. While they will not understand what is going on it is a great bonding moment. I read this book to my 5 month old daughter, she watches me so intently while I read it, and then looks back and forth between me and the book. I do believe she loves it when I read to her. Maybe not this book in particular but personally I find this book charming. I wish it had more pictures, because my 18 month is not really interested in it.
