Customer Reviews

If Peter Drucker is a business "guru", then Stephen Covey is a business "saint"! Covey adds value to people's business and personal lives by promoting humility, courage, integrity, "finding your voice" and more. This easy to listen to recording of a live presentation before a large audience presents a refreshing, energizing and challenging view of the future. Covey presents the timeless principles outlined in "The 7 habits..." and takes them to new levels with great examples, stories, metaphors and even video presentations on the included cd-rom. Very inspiring stuff!

This is Covey at his best. I've heard him speak several times and in my opinion Covey is at his best when he's talking freely with an audience and his speech isn't overly scripted. That is the case with this production and he even takes questions from the audience and weaves them into his discourse masterfully. This production really enforces and builds upon the principles from his Seven Habits book. I would highly recommend this recording to anyone that enjoyed his book *The Seven Habits of Highly Effective People*.

This is one of my favorites of Stephen Covey - you really need to read or listen first to "the 7 habits of highly effective people" before this one. It takes a high degree of maturity to reach the point of this book or CD, but if you do, your life will have a lot of meaning!
