Customer Reviews

My piano teacher got me started on these books. For people who like being self taught, I believe they are excellent. Of course we often need the experience of a wise teacher to catch our faults. There are three to four books in the series and even if you have some experience, start at the beginning.

Students use these exciting, teaching arrangements for Recitals, and the thrill of playing!Faber Piano Adventures are my number 1 choice.

Great piano book.

I keep buying the series for my son as directed by his piano teacher. The teacher recommends this books, my son plays and we see results. Happy so far.

Highly recommended by her teacher. This book pushes you further in learning more complicated fingering. My daughter likes the music.

my wife is a piano teacher and private lesson giver. she bought these as a tool. nice books, came as expected.
