Spanish: Short Stories For Beginners: 9 Captivating Short Stories To Learn Spanish & Expand Your Vocabulary While Having Fun

Synopsis

Introducing nine captivating short stories to learn Spanish. Are you bored of the traditional methods people tell you to use to learn Spanish? Are you bored of all those dusty grammar books that pile up, making everything look so hard? What if we told you there's a better, more enjoyable way to learn Spanish and grow your vocabulary exponentially? Well, guess what? There is! The best way to learn Spanish is by hearing short stories. The problem? You might feel like you don't know where to start, or you may feel lost trying to listen to whatever pops up on the Internet. And that's exactly why we created this book. **Short Stories + Foreign Language = Faster Learning** We know how difficult it may seem to learn a foreign language from scratch, let alone trying to put all that learning into practice. But what you might not realize is that it's fairly easy to fully incorporate the essentials of a language once you frame that learning into a certain context (for example, a short story). Short stories allow you to put what you've learned so far into practice, allowing you to expand your vocabulary quickly, make sense of ideas, understand new concepts, and overall get a better grasp of the Spanish language. Short stories work because they eliminate the stress of forcing yourself to learn. Instead, when you hear the nine captivating short stories we've prepared for you, you will learn Spanish without even realizing you're learning it! Your goal is to simply focus on a single story at a time (they only take a few minutes to listen to). The stories consist of multiple genres, including adventure, fantasy, mystery, and romance, just to name a few. We wanted these stories to be fun, interesting, and appealing, motivating you to keep on listening to find out what happens next. That's the very best way to learn, don't you think?

This book really has 9 short stories in Spanish and it has been a truly great time reading each. I have always wanted to learn this language, since my man is so into it. And I think that this book has offered a new and interesting for me to do it, by reading short stories. Studying Spanish by words and phrasing can be a bit boring, but reading stories written in Spanish is surely something to look forward to. And this book has proven that it is easy to learn a new language as long as one is set on doing it and as long as he is given the proper materials to do it.

I speak four languages, but Spanish is not my strong asset, so I bought this book to improve my reading skills. Each of nine short stories is broken into smaller chapters, which makes it easy to go through. What I really appreciated is that in every story there is a vocabulary section, so you can double check the most important moments. It's still getting quite difficult for me, but I believe this book with short stories will contribute to my better Spanish. I can recommend the book for the beginners like myself.

Spanish is such a delicate language and unique in its own form and structure. The words used in translation to the English language is so different everything is brand new. This book is a nice material for beginners learning the language. The short stories are entertaining with few quizzes at the end of every chapter. The more one reads through the text, the more one gains vast knowledge and increases fluency in Spanish.

It is very useful to me and the stories are interesting enough and for me a bit of a challenge to read. It will help beginning Spanish speakers further develop their new skills. A few stories have some nice moments or a giggle or two. I look forward to reading more stories and novels from this author.

I always liked to listen to Spanish language, I just love that language ! In this book there are several short stories in Spanish , although I do not understand I tried to read , very sonorous language and can tell an easy to learn ! This book absolutely helped me learn a few new things about the Hispanic world . Thanks to this book learning Spanish language has never been this easy and entertaining ! The short stories are fun to read nearly forgot I was practicing my vocabulary and comprehension in Spanish . A really good book ! I like it!

This is an interesting and helpful book! I'd found it's hard to learn Spanish in just a short period of

time. So I got this book and definitely this is the best and the easiest way to learn Spanish. Learning Spanish Language is fun. Though the alphabet is slightly different from English but knowing that it is one of the most spoken language around the globe is the most basis why we have to study this language.

Like any other students, I don't like common method of studying boring grammar and vocabulary at a school or with a teacher to learn a language. When I saw this book in the Kindle Store, it made me wonder how to learn Spanish by reading short stories. But, it is true! You can learn Spanish by reading the stories in this book. The book is composed by nine short stories that can be read in a short period of time. This way, your attention span won't be challenged as when reading a book with hundreds of pages filled with complex sentences.

I looove it! The stories here are great especially if you understand Spanish already. It is a good guide to enrich your vocabulary in Spanish. I think if you aren't that good in spanish language yet, you'll still enjoy this. it will challenge you and after reading these short stories you'll see how much you have improved. Fantastic idea fro them to create this kind of language book. It helps a lot. :)
