I bought this for my granddaughter who just started her 2nd year of piano lessons. Since I know a few guitar cords, we plan to learn a few Christmas songs for the holidays. Simple songs all in key of C, I think.

My kids are learning pieces from this book for their Christmas concert. The pieces are challenging for them but not so difficult that they are discouraged. They started the Faber 2A lesson book this fall and this is a great complement to their lessons.

The Fabers always do a wonderful job arranging music and have chosen nice selections, including sacred and secular Christmas songs. The thing I like best about using the Faber Christmas books is that I know my students using the corresponding lesson book will be at just the right level.

Honestly I should have gone a level 3, am an early intermediate level. This is a good book for a beginner though. and it introduced me to the Faber series which I am now using for my lessons.

I teach piano and this is my favorite Christmas book for students in the 2A level. Students almost always choose this book over other Christmas books at this level.

I bought a bunch of different books from these authors and I like all of them. I enjoy the fact that the songs are different and that they shipped to me quickly. Will buy from them again

Great piano series. We homeschool our three children and have used this series for four years. It is easy to follow and fun. What more could a parent and teacher ask for?

Fun, sounds great, easy for book 2 Suzuki piano student to play. Shipped quickly. Easy but sounds great. (why are there word minimum requirements for reviews?)
