## Customer Reviews

The "Best of Cole Porter" far exceeded my expectations for beautiful music. The arrangements are complex enough for the advanced pianist, but also easily practiced by the beginner. The songs selected, are a delight.

"The Best of Cole Porter" contains some of his best songs ever (in my opinion at least). The only thing that would make this item better is if it contained all of Mr. Porter's songs. For anyone not to familiar with Cole Porter, this book offers a great introduction to his music.

If you love Cole Porter's music there is nothing better than this collection of songs. I've made use of every song. Each one of the pieces are from some of his best works. It's a nearly perfect combination of some of the greatest songs ever written. One minor disappointment is that it doesn't contain more, or that there isn't other volumes of the same book. Basically, if you need/want a collection of Porter's music there isn't any reason why you shouldn't have this book. :-).

Grade 2/3 with nice arrangements. The only problem I have with this series of song books (I have several) is that the music is printed too close to the binding, so you have to nearly break the binding for the book to stay open when used. Wire binding and/or larger pages would be a big help.

The songs are abridged with verses missing. Disappointing because much of the fun of Cole Porter's music is the word play.

This album contains many, but by no means all, of Cole Porter's best songs. The sheet music is clean and easy to read. I used this book in a cabaret show, which was a big success.
